***Drawings***

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character “14” has been used to designate both the posts and the practice mat. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 103***

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 1, 3, 4, 10 and 12-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wei (6,500,077) in view of Blair (4,004,814). Attention is directed to the basis for the rejections set forth in the Office Action mailed August 4, 2005. Regarding the added limitation to claims 1 and 10, Blair discloses a golf tee including a support (10) formed from wire wherein the golf ball is teed directly on the wire itself. It would have been obvious to one of ordinary skill in the art to eliminate the ball holding seat (4) of Wei and tee the ball directly on the wire as taught by Blair in order to decrease expenses by reducing the amount of required materials.

Regarding the added limitation for the strike portion to be deformable, note column 2, lines 37-67 of Wei disclosing an elastic section. Thus, the support device is formed with a deformable strike portion.

3. Claims 5 and 7-9 are rejected under 35 U.S.C.103(a) as being unpatentable over Wei (6,500,077) in view of Blair (4,004,814) and Robbie (5,672,118). Attention is directed to the basis for rejection set forth in the Office Action mailed August 4, 2005.

***Allowable Subject Matter***

4. Claims 15 and 16 appear to read over the prior art of record.

***Response to Arguments***

5. Applicant's arguments with respect to claims 1, 3-5, 7-10 and 12-14 have been considered but are moot in view of the new ground(s) of rejection. The reference to Blair has been included in the rejection for teaching that it is well known in the art golf tees to tee the ball directly on a wire support without the need for a cup as taught by Wei.
